The hopes and prayers of Americans will ride into space with John Glenn. The first of the U. This is a courageous man, one of the best this country has to offer, who is working to advance this country in a field that is unexplored and unknown.

GRANGE MEETING

A successful penny sale was enjoyed by the members of Rochester Grange at the regular meeting on Wednesday night. "Sing Along With Madge", led by lecturer Lucille Ouellette, with the members all joining in singing, was another feature of the social hour.

A donation was voted for the Heart Fund. Lottie Bradford was reported ill and members were asked to send cards to her. A thank you note from Edward Bowen was read for fruit sent while he was ill. It was voted to let the New England Campers' Association use the hall. Mrs. George Kirby and Mrs. William Watling will be in charge of the sale of vanilla extract for the benefit of the Grange.

The quarterly report was read by executive committee member Floyd H. Taylor. Lecturer's march prizes were won by Miss Audrey LaFleur of Acushnet and Frank Jefferson of South Middleboro. Miss H. Ellen Hartley contributed to the birthday bank.

The Cranberry Growers Association was granted permission to use the hall for their meetings of February 28 and March 14. Visitors were present from Acushnet and South Middleboro. Men of the Grange served refreshments of cof-

DISTRICT GOVERNOR ADDRESSES LIONS CLUB

Mr. Frank Sawyer, Governor of District 33S, Lions International, addressed the Mattapoisett Lions Club at a meeting held at Meiling's Restaurant Wednesday evening. Mr. Sawyer spoke of the over 250,000 Lions projects sponsored each year by 650,000 members of 16,000 Lions Clubs throughout the world in 114 countries. In district 33S, comprising half of eastern Massachusetts, the 39th charter will be pre-

sented next month to the Westport club, which is the 15th newly organized Lions Club in this area. Mr. Sawyer reviewed the highlights of last Saturday's convention held at the New Bedford Hotel, and announced that the State convention would be held in Swampscott this Spring. He urged the Mattapoisett club to send a full delegation to the convention to help choose a new District Governor. This year, for the first time in a decade, more than one candidate has been nominated for the office.

Governor Sawyer stated that the Lions expect their ranks to be swelled to a total of nearly three quarters of a million members by the time the International Convention convenes in Nice, France this June. To help achieve this goal, a continuing membership drive is being formulated in District 33S this Spring. Many of the local clubs hope to be represented at Nice.

Mr. Sawyer, who is a director of the Massachusetts Lions Eye Research Committee, discussed the strides made in this field. Ten years ago, the cause and cure of blindness in new born infants were unknown, he said, but with the help of aid from Lions Clubs, under one half of one per cent of babies are now born blind. One half of the proceeds of Lions Club activities is donated to the Eye Research Fund, which is the Lions' primary project, he noted.

Prior to Mr. Sawyer's address, two new members were inducted into the club, George De Terra and John Tarvis. Renato Nunes, president of the local club, announced that $50.

MRS. LIPSITT TO HEAD HEART FUND IN MARION

The appointment of Mrs. Joseph Lipsitt as general chairman of Marion's 1962 Heart Fund was announced recently by George C. Lodge, State chairman of the February campaign.

Mrs. Lipsitt has been a resident of Marion for 24 years. She is also involved in a cancer research study. She is a graduate teacher of the New England Conservatory of Music, as well as a substitute teacher at the Sippican School, Marion.

Mrs. Lipsitt has served as general chairman in Marion since 1960, and was awarded a silver medallion last year denoting outstanding leadership toward conquest of heart disease. Last year Marion residents contributed $884. to the Heart Fund Drive.

Announcing the chairman's appointment, Lodge declared: "We are anticipating a highly successful campaign in this community, which has

"Research programs in our magnificent medical centers have saved many lives but the need for expanded programs is apparent. Many more people can be saved, and will be saved, when we make sure the 1962 Heart Fund is successful."

COLORED SLIDES OF TABOR CREW IN ENGLAND SHOW AT WOMAN'S CLUB MEETING

Mr. Harry Hoyle of Tabor Academy, Marion showed colored slides and commented on the 1960 Henley races at a meeting of the Mattapoisett Woman's Club last Thursday night in the Congregational Church parish hall. The Tabor crew and Mr. Hoyle, who is the coach, traveled to England for this competition. Henley is a small English town located on the Thames where the river has a straight run for over a mile. This course is famous for its shell racing and attracts crews from many countries. The boys from Tabor worked out on rowing machines every day at sea on the Queen Mary. At Henley, a new English built shell was delivered to them and Mr. Hoyle described the anxious first trials with the new craft. It seems that every shell has a different feel and the crews have their favorites. Since the British built boat has higher sides than the American counterpart, the coach had his fingers crossed while waiting for the boys to decide whether they liked the boat.

The country surrounding the course, Mr. Hoyle said, "was lovely". Judging by his

slides, the entire countryside resembled a well kept park for it is green with rich foliage and colorful with flowers. The stands, on race days, are filled with the sporting nobility dressed in their finest. Many of the gentlemen are attired in their old rowing club blazers and the ladies sport their most colorful spring hats. The trees along the shore of the course shelter the vast crowds watching this event. The racing is continuous. The course is designed to accomodate two shells at a time and these very tightly. The coxswain must use his skill to the utmost to steer the shell so that the oars do not strike the oars of the opponents on the one side and the barriers of the course on the opposite side. Tabor, on the luck of the draw, drew an excellent team from Syracuse University and were outdistanced by a length and a half. They were disappointed that after the long trip they drew an American crew to race against for they had been looking forward to competing against an English team. Mr. Hoyle said that the standards of sportsmanship were the very finest. To be a part of racing he said is the important thing to the English. After the competition the little town reverts to its sleepy self for another year furnishing a great contrast to the excitement of the Henley racing days. The crew visited Paris and then, returning to England, they toured by bus England and Scotland. At Bedford the crew again entered a competition. There they raced an exhausting three races

The United Nations is broke because it has a great majority of its members who are enjoying its facilities while not paying toward them.

If one half of the proposed United Nations bond issue of $200,000,000.00 can be palmed off on the United States then there is no limit to our tolerance of crime. Every year that this body has been in existence, we have paid more than one half of its operating cost. The Soviet government claims to be too poor to pay its share while at the same time they use their arms to stir up trouble in every part of the world. The ever increasing influence of the Communist bloc is the very reason that the United Nations betrays its own charter and becomes a body dedicated to propaganda instead of one which was designed to preserve peace in the world. At all times a double standard is used. The U. N. was helpless while Hungarian patriots were being crushed by Russia. At the very same time it was fierce in forcing the withdrawal of British troops from Suez. Nothing was done while Red China swallowed up Tibet. Red China invaded and waged war in Korea against a United Nations force which consisted mostly of United States troops. We sustained 157,530 casualties there. Yet, our Ambassador to the U. N. loses ground every year when Red China is brought up for membership in this organization as a peace loving nation. The U. N. carries on a war in the Congo in a very shady operation which establishes a precedent for the U. N. to invade a nation which is involved in internal struggle, and

put troops into that nation to fight on the side the U. N. chooses to support. This dangerous policy is fully supported by the United States. At the same time the U. N. ignores the Indian seizure of Goa. Nehru, who has been running around in a nightshirt and halo for years preaching non-violence and collecting money from both sides, has demonstrated by his victory the complete failure of the U. N. to maintian justice and peace.

The United States has paid for our retreat on the Hudson. Perhaps this is one reason for the moral and financial bankruptcy of this organization. If the member nations assumed their share of the financial burdens and the United States assumed its responsibility for leadership both in and out of the U. N., the outlook might be different. Instead we lean more and more on this house of cards built with a stacked deck.

The people of this country should bury their Congress under an avalanche of letters to give them the support to reject this $100,000,000.00 purchase of worthless bonds. It is past the time for the free loaders to go dutch treat.
